Payment Plans

How Payment Plans Work

You choose your own payment dates. During our initial meeting, we'll confirm when each payment will be made. Grant-Writing work progresses based on payments received rather than preset calendar dates.

1. Once the deposit is paid, your project officially begins.
2. When the second payment is received, I'll complete and prepare your first draft.
3. When the final payment is received, I'll finalize your proposal and all related documents for delivery.
4. Payment plans are flexible, but the writing schedule is tied to your payment schedule.
